Grass Lake Again Will Vote on Education Tax Increase on Sat., May 9

Public Discussion Meeting Set for Next Wednesday At School House

A meeting of resident of Grass Lake school district No. 38 will be held at 8 p. m. next Wednesday at the school for discussion of the approaching referendum, and the necessity for it.

The board of directors has announced that a special election will be held Saturday, May 9 for voting on a proposal to increase the education rate from .40 per cent to .71 per cent.

This would permit the approximate extendible to be \$27,720.03 in comparison to the present \$15,618.92. The extra money is for teachers' salaries.

The proposal was voted down once and the rate now remains the lowest in Lake County and the district is levied up to the limit of its present anticipation income.

L. Villa Village Election Tuesday Is A Hot Contest

Two Slates Contending for Most Village Jobs

Advance campaigns and interest in Lake Villa village election to be held next Tuesday, April 21, indicate a heavy vote there this year. Usually village elections are pretty tame affairs but the filing of two slates, this year, with incumbents on both, seem to indicate a hot contest.

Walter W. Schneider, Sr., present village president, is opposed by Fire Chief Ervin L. Barnstable. Schneider was appointed to the village presidency two years ago when William R. Kerr resigned. Schneider is basing his appeal for votes on his record which he says has seen more improvement in Lake Villa affairs than for many years previous. Improvements and extensions of the water and sewerage systems are among these. Barnstable is a building contractor and has been chief of the Lake Villa fire department for the past twelve years. He is very well-known and is certain to poll a large number of votes.

On the slate headed by Barnstable, the names of Paul Williamson, Russell Wilson and Elmer Sheehan appear as candidates for village trustees. Williamson, incumbent, has served on the board eight years and is up for re-election. Wilson and Sheehan are making their first bid for public office. Everett Gallager, police magistrate, and Carl Reinebach, village clerk, are both up for re-election to complete the slate.

On Schneider's ticket, Fred C. Bartlett, Joseph F. Nader, Jr., and Joseph J. Grabowski seek the office of trustee. Bartlett is a veteran member of the board, having served as trustee for twenty years. The other two are first time candidates. The slate has no candidates for police magistrate or clerk.

Veteran political observers of Lake Villa agree that the race Tuesday will be a close one, but seem to give Schneider a slight edge over Barnstable. At any rate Lake Villa will be a scene of activity Tuesday.

GRASS LAKE P. T. A. TO SPONSOR CARD PARTY

On April 25 the Grass Lake P. T. A. will have its last get-together of the current school year in the form of a card and bunco party. Prizes will be given.

As an added attraction, the committee has arranged to have the Cub Scouts sponsor movies at the Scout home for the children. There will be a slight charge for the movies, but the parents will be able to concentrate on the card party, knowing their children will be under the watchful eyes of the Cub Scout committee.

After an enjoyable evening of cards or bunco, refreshments will be served.

The accident occurred when Kolender's Cadillac skidded on wet pavement on a curve and crashed sideways into a tree.

High School Meeting To Consider Purchase Of Art Work For Halls

With the remodeling and completion of the existing building and the new addition to the local high school there is need for the collection of good pictures to be hung in the various halls and in the classrooms. The pupils and faculty wish to start a collection of the better art reproductions. By carefully establishing a plan for the collection of the pictures a fine variety can be accomplished over a period of years.

Class groups are discussing and considering the plan and if funds are available this year will purchase some pictures to start the collection.

A representative from the Elyria Arts Company will be at the high school at 2 p. m. May 1, to explain the program and show pictures. The pictures purchased for the school will be reproductions of old and modern masterpieces. The cost of the pictures will vary between \$25 and \$45 depending on the size and the kind of frame desired.

The pupils and school personnel feel that it would be wise to inaugurate a plan of purchasing a few excellent masterpieces rather than buy several pictures of inferior quality. By spreading the cost over a period of years, a fine collection can be distributed throughout the building.

If there are individual or organized groups in the high school district No. 117 that would like to participate voluntarily in the picture program, they are welcome to attend this meeting on May 1 at the high school.

Lux, Baethke on Grade School Board; Hills Vos, Cain, H. S. Board

Wertz Again Chosen President; Mrs. Lux Made Secretary

There will be several new faces on the high school and grade school boards as the result of Saturday's elections.

Mrs. Fern Lux, a former local teacher, was elected to the grade school board and in Tuesday night's organization meeting she was made secretary of the board. Her 212 votes Saturday led the four candidates for the three-year offices. Charles E. Wertz again is president of the board.

Arthur Laursen, incumbent, and Elmer Baethke were tied at 147 votes each and in the drawing of lots Tuesday evening Baethke was the lucky candidate.

Henry J. Rentner, incumbent, was unsuccessful for re-election with 86 votes.

Mrs. Helen Patrovsky, appointed to fill the unexpired term of Wendell Nelson, was unopposed for the two-year term and received 279 votes.

Walter Hills, veteran member of the Antioch Township High School board was re-elected to office and Roman Vos and Milburn C. Cain were the two other successful candidates.

The votes were distributed as follows:

Hills, 274; Vos, 311; Cain, 292; Leona Petersen, 223; Virginia Herbst, 181; John F. Romer, 146.

Sale of the residence on the high school grounds was approved 457 to 44.

The high school board will meet this evening to organize, after polling the vote.

Board May Study Plan For Remodeling Hall Into Business Office

One of the matters to be considered by the village board at its adjourned meeting Monday evening will be the remodeling of the village hall to provide an office for the clerk and treasurer.

An architect has drawn plans which will convert the space formerly used by the fire trucks and Rescue Squad trucks into office, storage and vault space, leaving the present room space for the board meetings.

A new front will be placed on the building and the present front doorway will be closed so that a hall can be made for entrance at the side to the rear in going either to the board of trustees room, the basement and cell room, or to the office room.

Just what other matters will be acted upon will depend on the progress of plans. The board wants to transact as much business as possible before the new fiscal year starts. It is a meeting the public may attend.

Minors May Obtain Working Permits at Antioch High School

Local High School officials announce that minors residing in District No. 117 (Antioch Township High school) may secure their employment certificates and certificates of age at the high school office.

With the summer employment soon to take place for boys and girls it is necessary to have the proper certification. It is not necessary for boys and girls residing in District 117 to secure employment certificates of age from the Lake County superintendent of schools. The local high school is authorized to issue these certificates.

Minors 14 years of age and under 18 years may be employed outside of school hours and on days when school is not in session and during school vacation periods. The employer shall have on file for each minor an employment certificate issued by the high school principal, provided the work is not of a hazardous nature or in violation of section No. 7 of the Child Labor law. The certificate is issued in triplicate and the high school principal mails the original to the minor's employer, send the duplicate to the State Department of Labor and retains the third copy for the office files.

Before an employment certificate can be issued the following requirement must be met:

1. A statement of intention to employ signed by the prospective employer.

2. Legal papers to show evidence of age.

Employers hiring minors alleging to be between 16 and 20 years of age should protect themselves against unintentional employment of under age minors by requiring them to obtain certificates of age. The local high school is authorized to issue these certificates of age to any person between sixteen and twenty years of age upon presentation of the same proof of age as is required for the issuance of employment certificate under the child labor law.

Mrs. George Grunow, Jr., of Channel Lake spent the week-end in Chicago.

Woman's Club to Hear Lecture on Alaska By Kathryn Winslow

"Do We Want Alaska," is the subject of a speech to be given at 1:30 p. m. Monday before the Antioch Woman's club at the fire station club rooms by Kathryn Winslow of Chicago.

The lecture will be accompanied by Kodachrome slides in natural color.

What does Alaska cost the United States? How do children get along without ever drinking fresh milk, fresh green vegetables or fruit? What's in an Eskimo house? What are totem poles? How much does a steak cost in Fairbanks?

The answers to these questions are a few of the items that the speaker will discuss.

Miss Winslow just recently returned from Alaska so her material and information are fresh and timely. She tells of her travels in Alaska. She is author of the gold rush book, "Big Pan-Out" and is regarded as an authority on Alaska.

Hostesses for the meeting will be Mrs. H. Jorgenson, Mrs. Alma Bobzien, Mrs. Harry Lubeno, Mrs. Dudley Kennedy, Mrs. Frank Powles, Mrs. Ralph Jepsen, and Mrs. William Keulman.

Monday will be guest day and members have been urged to bring their friends to enjoy this outstanding program.

Antioch High Wins Baseball Opener 3-1 Against Richmond

Antioch Township High school opened the baseball season Monday with a victory over Richmond-Burton High school at the Sequoit grounds. The score was 3 to 1.

Antioch got but one hit off Bob Miller, but it meant victory. Miller issued two walks and when an outfielder misjudged Verke's fly ball, it went for a hit and additional errors set all three base runners home.

Richmond scored her lone run on a walk, stolen base and an error. Antioch pitchers Verke and Stahmer allowed only 3 hits.

Grant will play here Tuesday, and the Grant soph-frosh team will play the Antioch soph-frosh nine a double header Saturday.

Batteries were for Antioch Mark Verke and Bruce Stahmer, and for Richmond-Burton, Bob Miller and Ron Miller.

Grade P. T. A. Will Discuss Red Cross Swimming Program

Antioch To Elect Officers Tuesday In Quiet Election

All Officers Up for Re-Election; One Independent

Antioch village will elect officers for the year Tuesday, April 21, in what is expected to be a very quiet election. To be elected are a president, three members of the board of trustees, a village clerk, village treasurer, and police magistrate.

Candidates for trustee are the only ones with opposition, in the person of Mrs. C. E. Hennings, lone candidate for member of the board of trustees on the Independent ticket. Mrs. Hennings has been a resident of Antioch for 28 years and has been interested in civic affairs, having served as an officer in various organizations at one time or another.

J. W. McMillen is the Peoples party candidate for president, and is up for re-election, as are Trustees Edgar S. Simonsen and Arthur M. Hawkins, both having served a number of terms on the village board. John M. Blackman is a newcomer to the political scene in Antioch village affairs, but is very well known here, having been active in Masonic affairs as well as other organizations here. He is a partner in the building contracting firm of Laursen and Blackman. It is certain that Blackman's personal popularity will insure a large number of votes for his candidacy.

Village Clerk Clarence Shultis is running for that office for the first time, having been appointed to fill the unexpired term of Col. L. D. Powles, who is presently in Japan, having been recalled into the armed services two years ago. Mrs. Elmer Hunter is unopposed for re-election to the office of village treasurer.

Through an oversight, no candidate for police magistrate filed for the job, but Police Magistrate E. Elmer Brook has indicated that he will serve again if his name is written in. Failure to write in his name, or some other name, will result in the village being without a police magistrate the next term.

Absence of candidates in opposition seems an indication that Antioch residents are well satisfied with the present village administration, and that the election will not draw a large number of voters.

Rubbish, Grass Fires Lead to More Serious Damages During Week

Fears of the Antioch fire department that grass fires would lead to more serious damage were born out during the past week.

A rubbish fire spread to and ignited a two-car garage at the Kumst Royal Blue store at Loon lake early Monday afternoon destroying the building and some tools it contained at an estimated loss of \$2,500.

Earlier on the same days a grass fire at the Frank Royer place at Cox's Corners, Channel Lake, destroyed a wood pile and several hives of bees before the firemen were able to bring it under control.

Other grass fires were on Saturday at the Homer La Plant property south of the village and on Monday morning on Orchard st.

Fifty dollars damage was done to the roof of the house occupied by the William Hubner family on the W. C. Petty farm on Rte. 173 at 8:30 a. m. Tuesday. The fire is believed to have started from the chimney.

At 10:20 a. m. that day the firemen were called to the Jack Wells farm on Rte. 173 west of Channel lake to extinguish a grass fire.

The firemen were called to 1008 Main st. Sunday where a furnace became overheated. No damage was done.

Coal and the Rocket Age

Strange as it may seem, coal may have a direct bearing upon the rapidly with which man unravels the mysteries of space travel. The nearly indestructible new metal called titanium is described by some enthusiastic engineers as the potential "steel of a Rocket Age." Right now every effort is being made to increase titanium production because of the Air Force's need for it in supersonic jet plane construction.

The big problem in the production of this vital metal is the tremendous amount of electric power required—four times as much as for aluminum. In the expansion necessary to meet this and other needs of our growing nation, the electric industry will have a dependable partner in coal, the number one fuel for supplying America's heat, light and power. Coal now is the source of about 70 per cent of the nation's electricity.

Looking to the future, the coal industry is planning tremendous increases in production to stay ahead of every demand placed upon it. And, coal is abundant—its reserves are sufficient for hundreds of years. It's a dead sure bet that it will still be around and working when the Rocket Age comes and the old dream of space travel is realized.

More Beef for the Dollar

A short time ago, the American Meat Institute made a cross-country spot check of retail beef prices. It found that some cuts were selling at the lowest prices in four years. It also found that in many places steaks were being offered at prices close to, or even less than, the price reached by hamburger at last year's peak.

In the light of these facts it is not surprising to learn that consumers have been eating much more beef than was the case a few months ago. And we need have no fears as to the adequacy of supply—the cattle population on the nation's farms and ranches is at a record high, according to Department of Agriculture reports, and it is expected that the 1953 slaughter will be considerably greater than that of 1952.

The recent gyrations in the cattle markets have provided an excellent illustration of how the law of supply and demand works. It is an axiom that when any commodity is in heavy supply, the price tends to go down—and that when any commodity is in short

supply, the price tends to go up. Due to a combination of factors, late beef marketings have been heavy and the price levels have reflected that fact.

This is a boon to the consumer, who gets more beef for his dollar. From the producer's standpoint, the price drops have been sharp. But those who know the complicated meat business best think that these adjustments, painful as they are, may lead to a healthier situation all around. In any event, it is to the credit of the cattlemen that there has been no general cry for subsidies or other governmental aid.

Profits in 1952

If you think that a large part of the money you spend winds up in the form of profits for the businesses you patronize, a report just published by the Chamber of Commerce of the United States will be both informative and surprising.

Last year American corporations made a record sales of goods and services—some \$500,000,000,000 worth. But net profits were substantially lower than in 1951—averaging only 3.4 cents on each sales dollar. The decline was largely due to taxes.

Taking the 1946-52 postwar years, it is found that corporate net profits rose by \$3,200,000,000. In the same period, by comparison, compensation to employees increased by \$73,000,000,000—well over twenty times as much.

The moral is plain—profits are a small factor in the price we must pay for things.

The Low Down from Hickory Grove

While the crew is new down there in Spend-town-on-the-Potomac—and while it is off to a pretty good start—is the time to join in and come to the aid of your country like all good men should. With ceilings off coffee and controls off automobile building, and the theories of the Bureau boys blowing up in their faces, it is time to tell Mr. Ike and his crew that you think they are starting out pretty skookum. Chrysler is building more cars and selling 'em for less since controls came off. Theories got a haymaker—but we need go further. Winning one round don't win the whole fracas.

The time to put in your oar is now if we are to get all the barnacles off the old boat-of-state. Also if we are to see to it that new barnacles do not take the places of the old, we need practice our penmanship via post cards to our congress. Coming to the aid of our country when aid is a duty, is now.

The well-fed crew numbering in the thousands are still there in Bureauville—they are doing us no good—they will hang on until pried loose. If you choose to show you are a citizen of the first water—and still think we can make something of a bad mess, opportunity is rattling your door knob. And to the sweet little woman I say this—if your big hero don't grab his pen and get busy, he is not the guy you been thinking.

What's new about
"TT" DYNAFLOW?

The TAKE-OFF'S
TERRIFIC!

It's only fair to warn you.

When you try a new Buick with the sensa-
tional Twin-Turbine Dynaflo Drive,*
you'll tingle all over with thrill.

You'll sweep your speedometer needle from
zero to 30 mph so quickly, you won't have
time to breathe but twice. You'll move from
a standing start to legal speed so quietly,
you'll practically hear your heart beat. You'll
experience such complete and utter smooth-
ness every step of the way, you'll be wholly
relaxed, refreshed, and ready for more.

This is not dream stuff. This is real.

This is what actually happens when you're
at the wheel of a new 1953 Buick with
TT Dynaflo.

Twin Turbines in the Dynaflo unit, instead
of just a single one—in addition to other engi-
neering advances—make the tremendous
difference.

So you feel a firmer and more immediate
"take hold"—get far faster getaway, new

quiet and efficiency, plus infinite smoothness
to and through every speed range.

There's a lot more to be had, of course, in
these great new Buicks. Higher horsepower and
compression ratios. A still finer ride.
Easier handling. Improved visibility. More
comfort and richer interiors.

But start with take-off—the greatest in
Buick's fifty great years—and learn the rest
of the story from there. Can you drop in on
us this week?

*Standard on Roadmaster, optional at extra cost on other Series.

A Whale of
a Celebration

Amiel Feyerabend, is Now Celebrating
His 28th and 5th Anniversary of Sell-
ing Cars at Retail

He has been successfully selling automobiles for 28 years in the State of Illinois and 5 years in Antioch.

To celebrate this special event—arrangements have been made through the co-operation of the Studebaker Corporation at South Bend, to supply us with a large volume of new Studebaker cars.

Our main objective of this event, is to place as many excitingly new 1953 Studebakers in this area as possible. We realize, in order to accomplish our objective we will have to sacrifice a large portion of our margin of profit: Meaning that we will give up to \$300.00 more for your car than its actual value.

We humbly and sincerely invite one and all to pay us a visit and find out for yourself, how you can receive the most value for your automobile dollar.

FOR THE PERSON LOOKING FOR A GOOD USED CAR OR TRUCK, WE ALWAYS HAVE A LARGE SELECTION OF LATE MODEL CARS AND TRUCKS TO CHOOSE FROM.

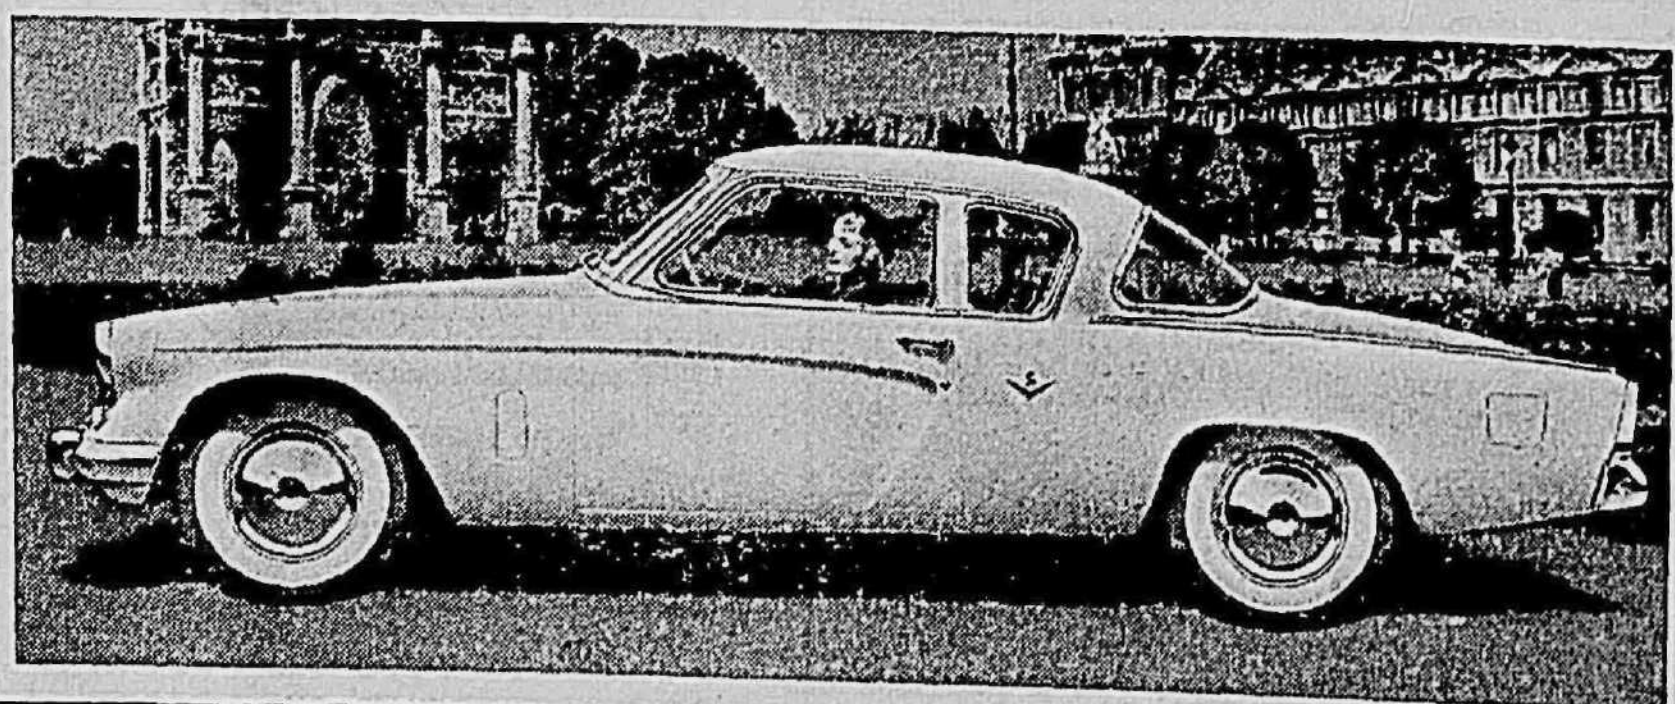

REMEMBER, WE AT ALL TIMES, GIVE MORE THAN WE PROMISE.
